Group 10-Phase 4 Instructions

Option 1

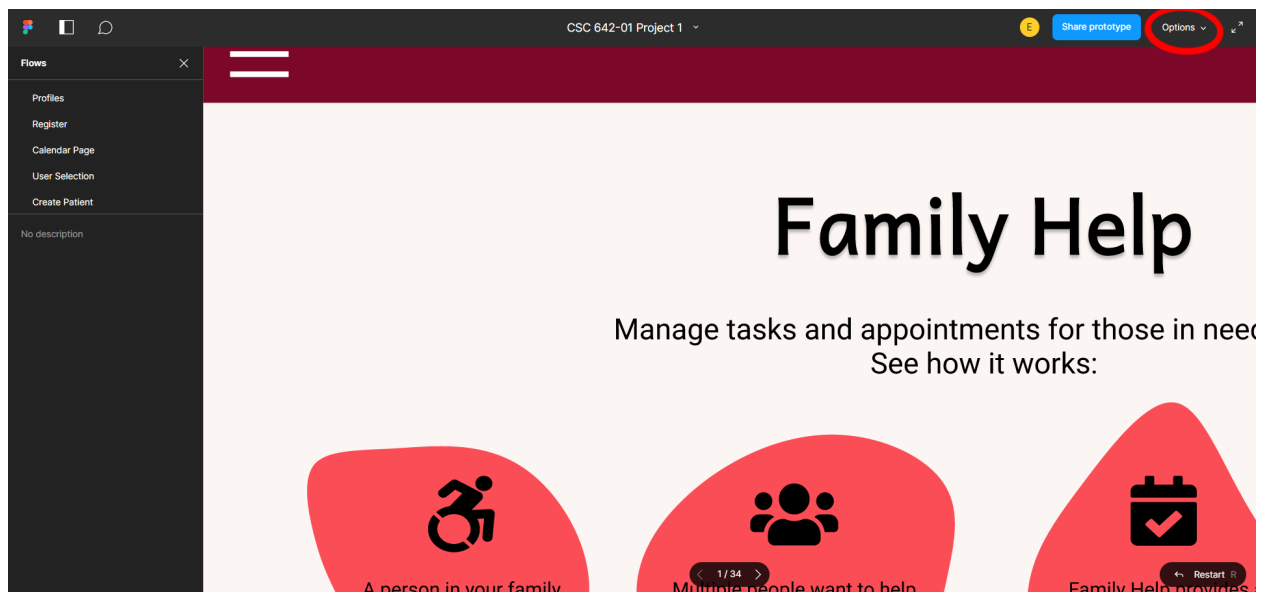

Step 1: When clicking the Figma link, the page will look like this. Click the triangle button on the top right near the corner, shown circled in red.

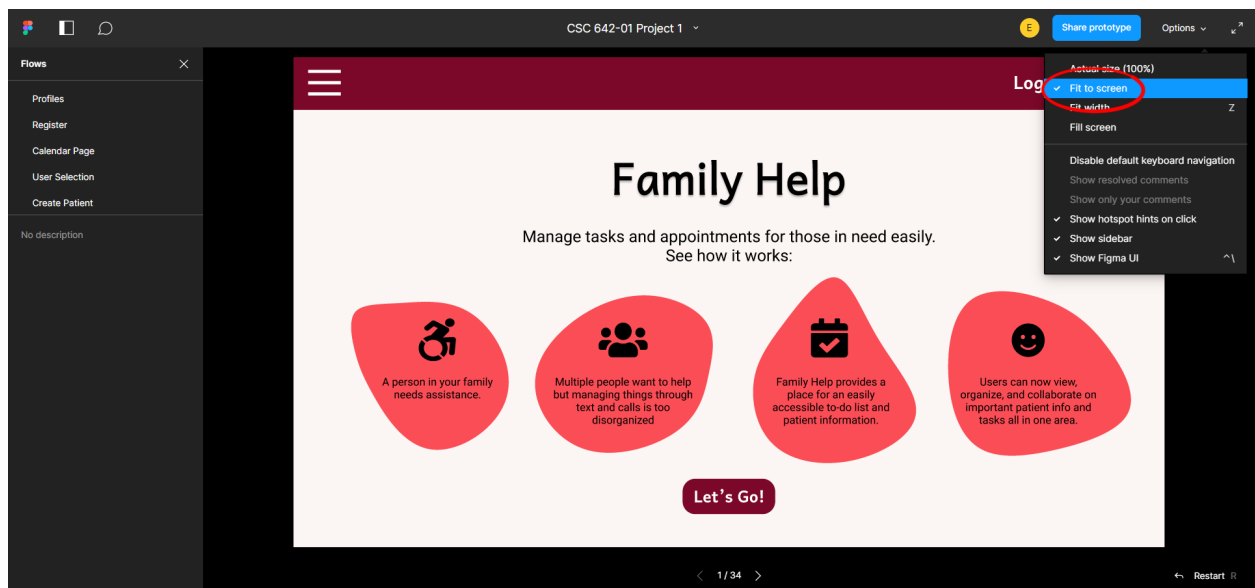

Step 2: A new tab should open. Scroll through the navigation bar on the left and click START HERE, which is circled in red.

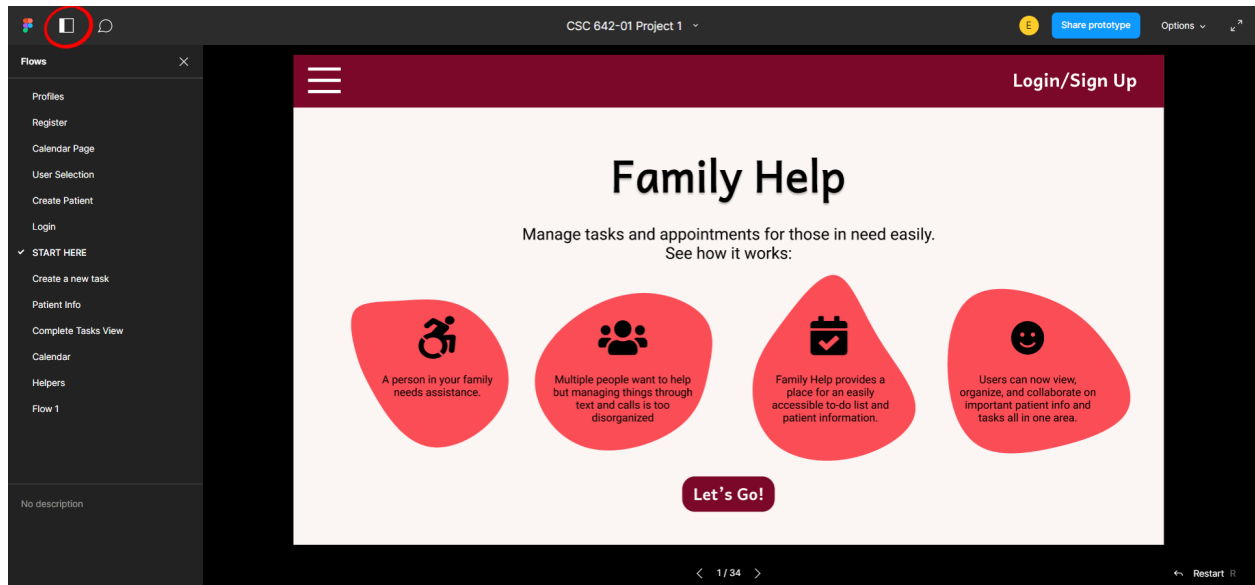

Step 3: For an easier viewing experience, click the options on the top right corner circled in red.

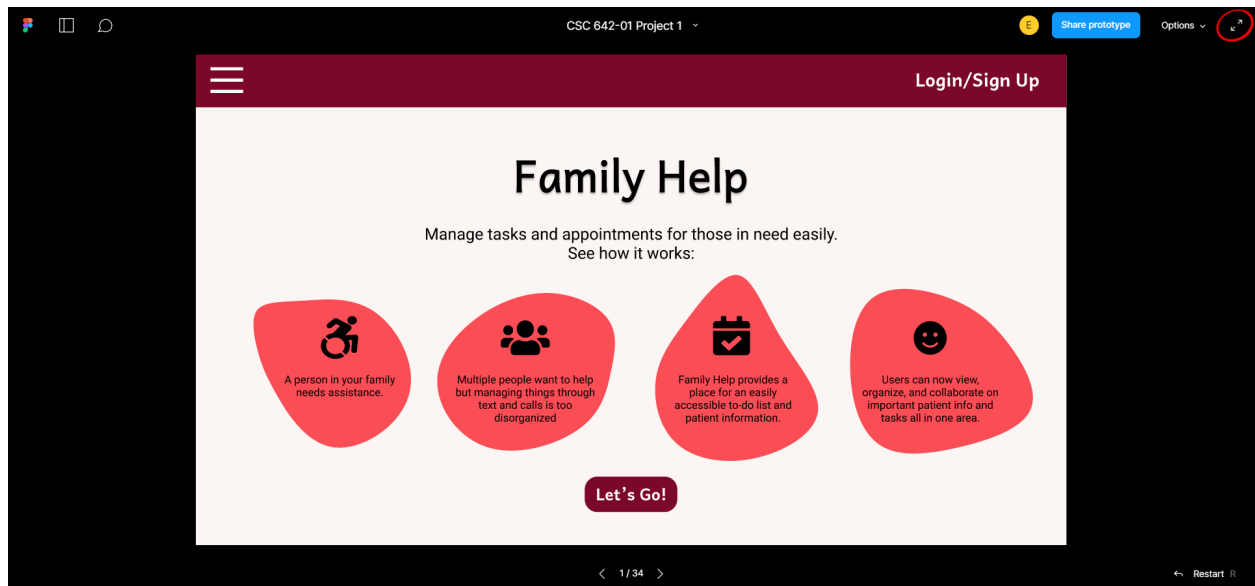

Step 4: A dropdown menu should show up. Click fit to the screen shown circled in red, and it should zoom out to show the whole screen.

Step 5: Click the rectangle icon near the top left corner of the page, shown circled in red to get rid of the left navigation bar.

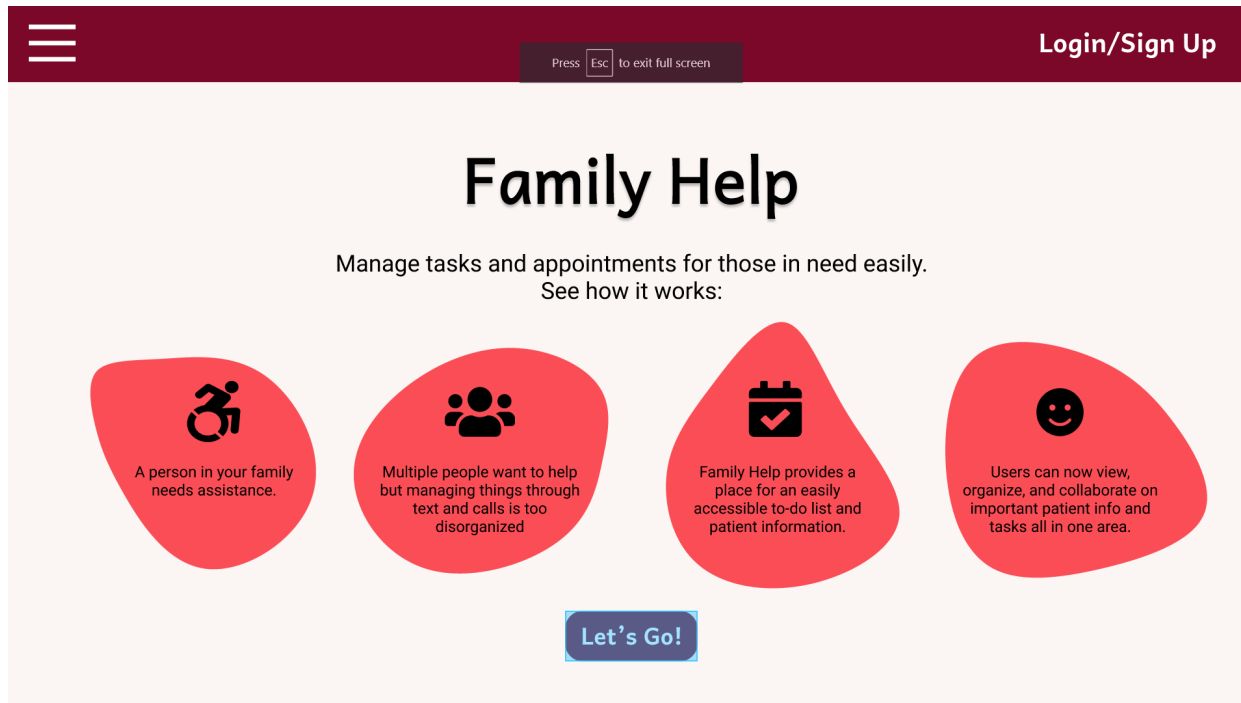

Step 6: Click the arrows icon on the top right corner, shown circled in red to full screen the page.

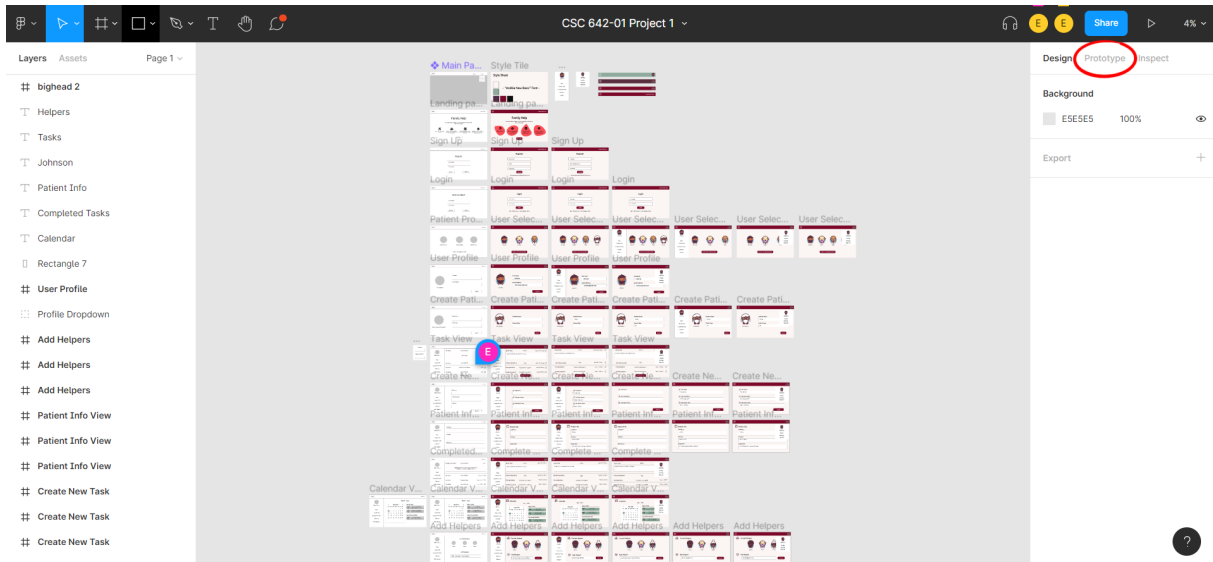

Step 7: Now the page is full screen for easier access. When clicking on an empty space, it will show blue boxes that can be clicked on. These are buttons that will flow page through the pages. For example, the image below shows a blue box on the Let's Go button. Click the button and it will take you to a new page.

*Recommended: Follow the video short demo video on the Github or report to easily flow through the pages.

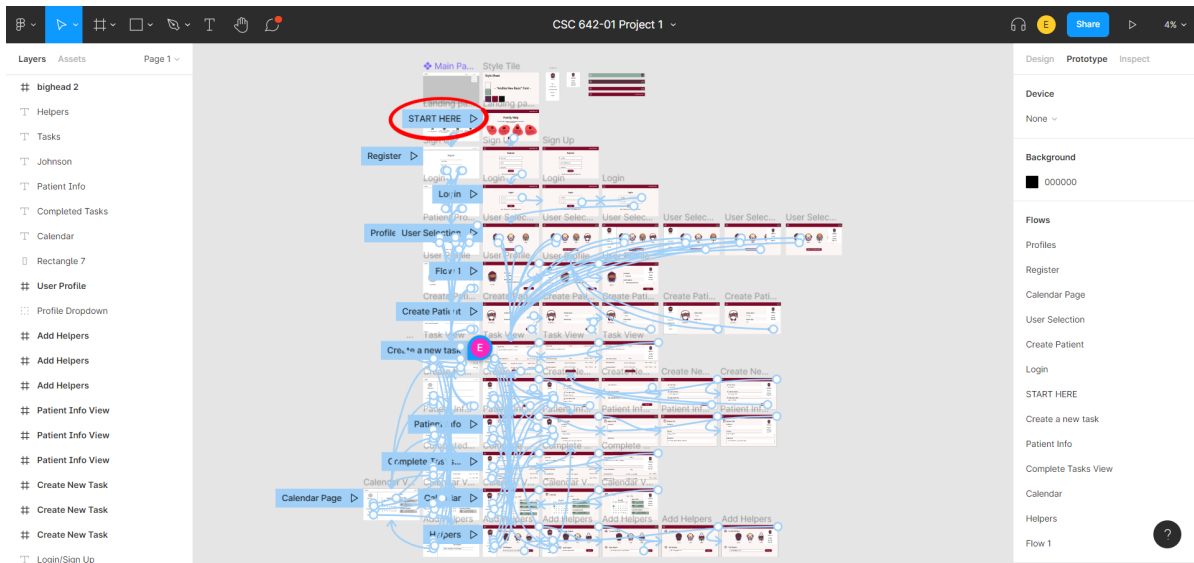

Option 2

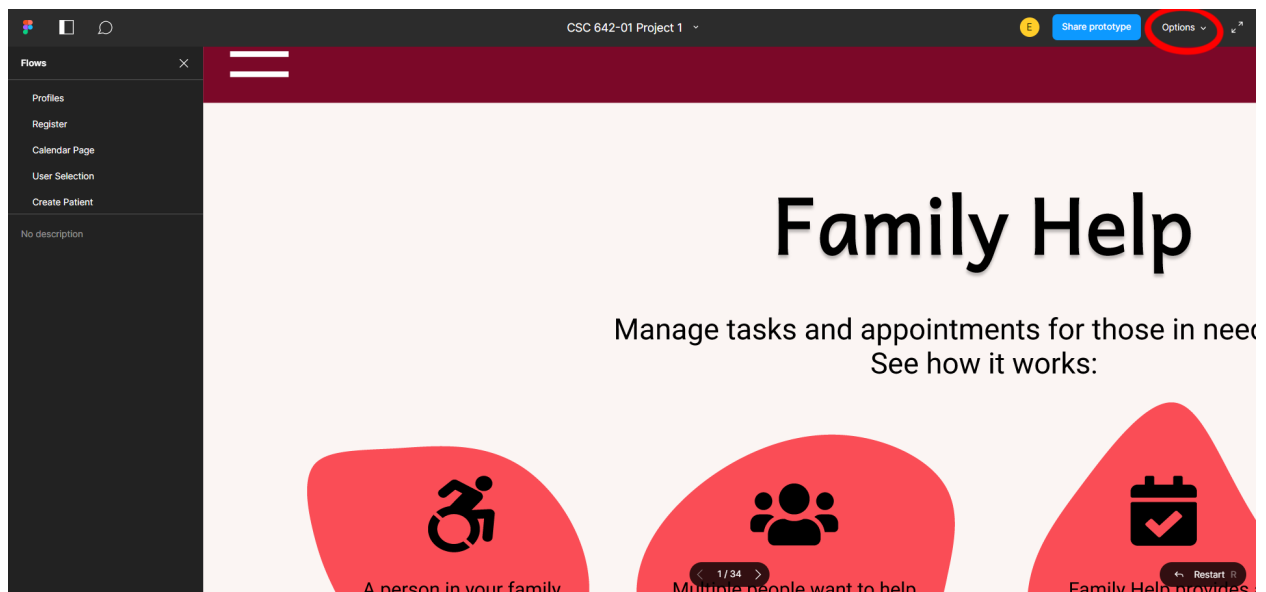

Step 1: When clicking the Figma link, the page will look like this. Click prototype on the top right corner circled in red.

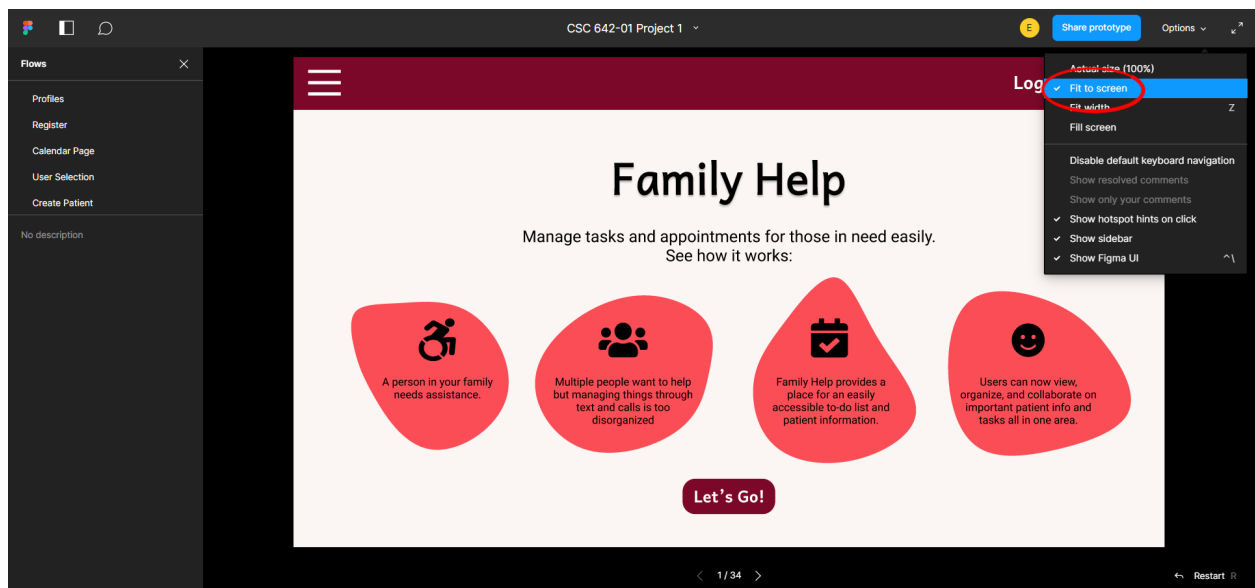

Step 2: After clicking prototype, it will show this page. Click start here circled in red.

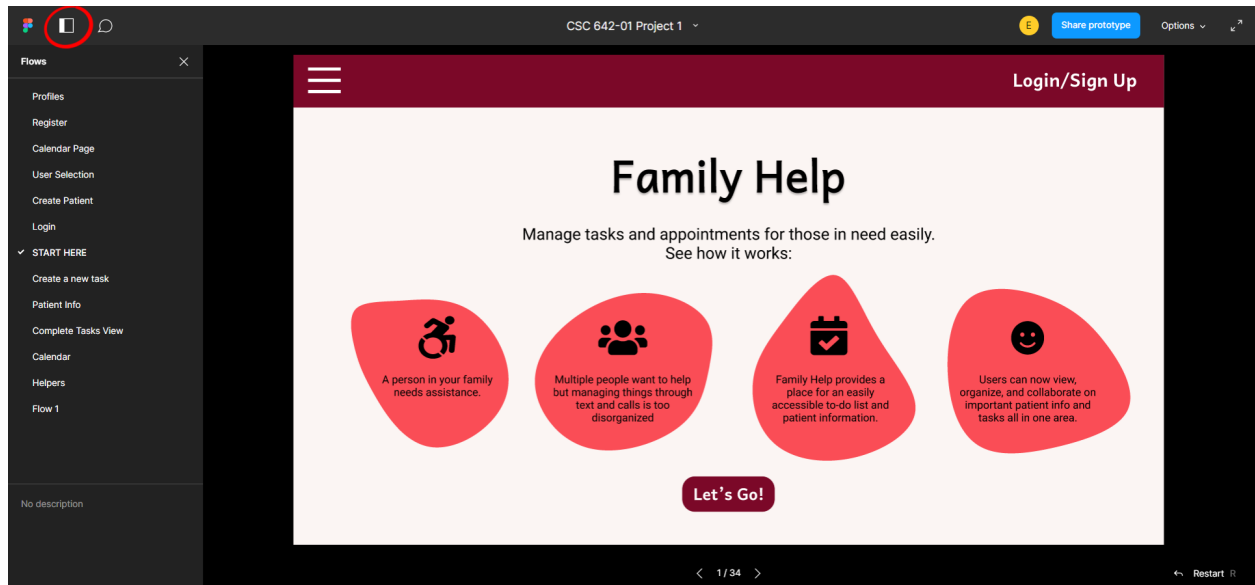

Step 3: For an easier viewing experience, click the options on the top right corner circled in red.

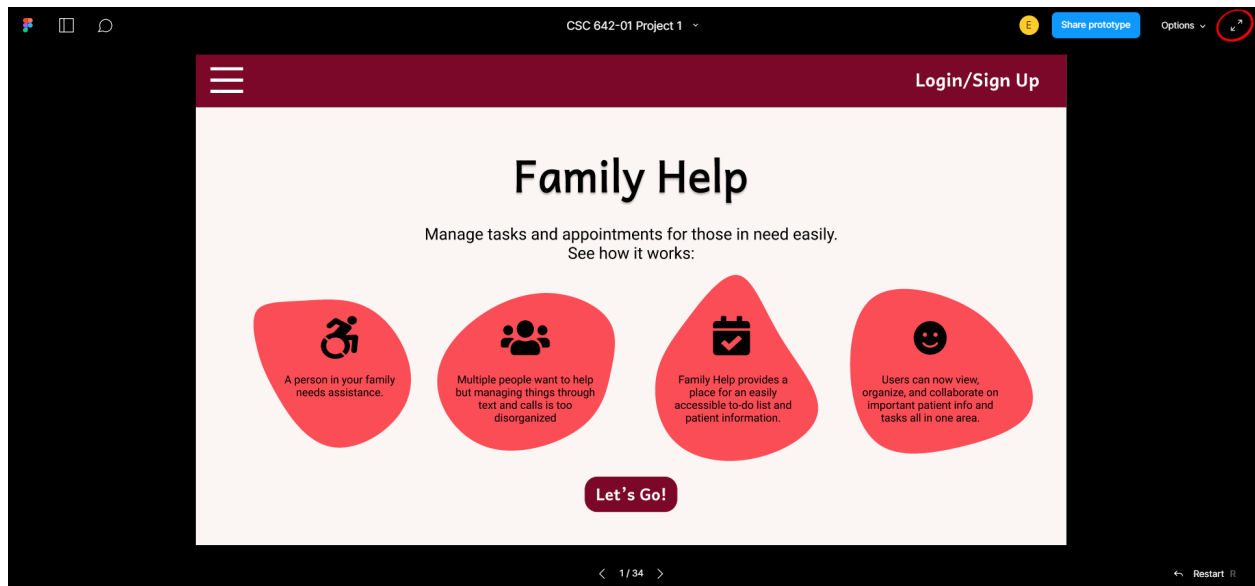

Step 4: A dropdown menu should show up. Click fit to the screen shown circled in red, and it should zoom out to show the whole screen.

Step 5: Click the rectangle icon near the top left corner of the page, shown circled in red to get rid of the left navigation bar.

Step 6: Click the arrows icon on the top right corner, shown circled in red to full screen the page.

Step 7: Now the page is full screen for easier access. When clicking on an empty space, it will show blue boxes that can be clicked on. These are buttons that will flow page through the pages. For example, the image below shows a blue box on the Let's Go button. Click the button and it will take you to a new page.

*Recommended: Follow the video short demo video on the Github or report to easily flow through the pages.
